

Sacramento County Alarm Permit Requirements

There has been some confusion regarding alarm registration requirements for residences and businesses inside the gates at Rancho Murieta. To clarify, all residences and businesses that maintain a burglary or robbery alarm are required by Sacramento County ordinance to maintain an alarm permit. The permit is issued by the Sacramento County Sheriff's Alarm Ordinance Bureau. The Rancho Murieta Security Department does not issue alarm permits.

The link to the Alarm Ordinance Bureau website, see below, contains all of the information regarding alarm registration requirements. The phone number is 916-874-4616.

You should also check with your homeowner's insurance representative. There may be a discount available for certain types of alarms.
