Treating Swim Hole for Algae

Monday August 5, 2019

7-9am

The Rancho Murieta Community Services District (District) will be treating the swim-hole area in Clementia to help control algae and improve water clarity per a request by the Rancho Murieta Association. The product being used is SeClear, which is NSF approved. The product will be applied at a low rate and will be taken up by algae within a short period. Please avoid the area and work site while work is in progress.

Thank you for your patience while we conduct this service. We apologize for any inconvenience this may cause.

If you have any questions please call Paul Siebensohn, Director of Field Operations, at 354-3700.
